Coshocton County Juvenile Court
QIC-CCCT

Basic Information

Develop Strategies: implementation of Comprehensive Addiction and Recovery Act of 2016 (CARA)

Jurisdiction Served: Coshocton County

Program Implementation: March 2019

Program Capacity: 100 Families, 125 Adults, and 50 Children

Target Population

We serve infants, children, and families affected by substance usage. This includes mothers that have substance usage while pregnant, babies with prenatal exposure, and children living with substance use in the homes.

We will help 50 families, 63 adults, and 25 children per year.

Key Partners

- Family Drug Court
- Dept. of Job and Family Services
- Coshocton Behavioral Health Choices
- AllWell Behavioral Health Services
- Help Me Grow / County Board of DD
- Coshocton County Health Department
  - Maternal and Child Health Clinic
  - Women, Infants, and Children (WIC)

Program and Services

- Collaborative referral system with birthing Centers and hospitals for substance use affected mothers and infants
- Safe Care Plans: Early support for new born infants and families affected by Substance Use Disorder
- Early Intervention and Home visitation services to support babies and families

Goals for QIC-CCCT

- Develop a comprehensive referral system.
- Identify, refer, educate, and engage community providers and parents about services for infants, toddlers, and families exposed to substance and other drug use.
- Identify gaps in services.
- Identify areas for expansion of services.
- Plan of Safe Care development enhancements.
- Mentoring and education programming
